## EDITOS

### Vivons ensemble le Grand air !

At Saumur, when we talk about this event, we just said « the eventing ».  
This is a title which sounds perfect for us, because it summarise our ambition.

First, because it is a complete event, in which we are not only spectators, we live a real experience, of Grand Air, of Humanity in association with Nature rather than enslave it for human needs. You will live Verrie, this place so preserved and so fitted, so protected and so diversified.  
Then, because all of the activities than we propose are complete : sure there is horseriding, but monumental art too, running, concerts, innovation, local products, and animations for all ages.  
Sure, you will see one of the most beautiful and extraordinary competition of eventing in Europe.

And finally, because we are all here together to create a unforgettable party !

**Jean-Christophe Dupuy, Directeur du Comité Equestre de Saumur**

The International Eventing is an unmissable appointment of equestrian event for Saumur' habitants.

**Jean-Michel Marchand,**  
**Président de la Communauté d'Agglomération Saumur Val de Loire et president du conseil d'administration de l'IFCE**

## INTERNATIONAL EVENTING

3 TESTS > 3 DAYS

CCII\*/CIC2\*/CCI3\*

The international eventing\*\*\* of Saumur is internationally recognised by the best eventing riders. Moreover, it constitute a grade qualification for WEG 2018 (world championship) in Tryon (USA) this summer.

The test will take place on the racetrack of Verrie - Saumur (49) with a 160 hectare area, property of Ministère de la Jeunesse et des Sports, be made available of Comité Equestre de Saumur by l'IFCE-ENE.

The organizing comitee will know all the participations next 15th May. We already have 17 nations (Belgium, Switzerland, Spain, Italy, Norway, Japan, Thailand, Australia, Great Britain, Germany, Mauritius, Portugal, Sweden, New Zeland, France, Iran and India). All riders will be there for this inescapable deadline to prepare the world championships of Tryon. We already count on Christopher Burton (AUS) and Mark Todd (NZL).

Competition will show to the public a real complicity in couples riders/horses of high level. Moreover, they will see one of the most spectacular esquestrian discipline, the cross country, which consist in jump natural obstacles in a 5km race in forest.

17 km : 11h

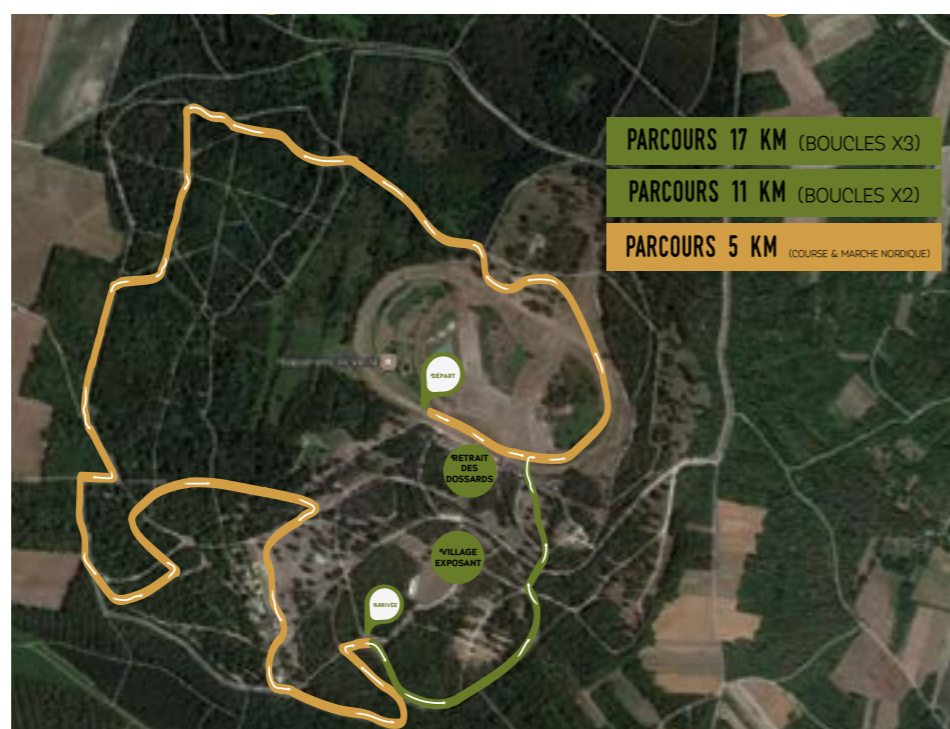

### Finish :

=> Provision, food given

=> Brassband de l'Université d'Angers

=> Free wine tasting by les Vins de Saumur

=> Cryothérapie space !

# Annual appointment of innovation

Thrusday 24 may from 14h30 to 19h - Bouvet-Ladubay's space  
Free entrance

« In the past, horse put Human on a pedestal. In the future, it will help us to keep our feet on the ground », said Guillaume Henry during his HIT speach 2017. Nothing is more real than it.

At the time of artificial intelligence's fear and singularity, these ideas are spread by personnalités as Elon Musk, Stephen Hawkinks and Laurent Alexandre. Us, horse lovers, we have a unic advantage : a relation with an animal which is superior of all arithmetics and algorithms.

When we create the HIT in 2016, Marine, Frédéric and I had an intuition : horses will be the future of the conciliation between Human and environnement. It is verify everyday.

HIT programm 2018 constitue the best proof. Technology wil be present, but still to serve the common property.

When we talk about collaborative breeding, hub services, interruption of veterinary cares or horses protection, we talk about new things created to improve more and more the relation between Humand and horses, more responsibe, more conscious and... more connected.

But, more importantly, HIT will highlight the incredible educative potential of horses, through the personality of two women who created and found some incredible projects : Anne-Sylvie Bameule and Charlotte Rabouan. By exploring two different ways, one is the big educative project and the other one horseriding teaching, but with a common point, the ability to question human convictions. They trangress dogmas, because they stay open to all possibilities.

Horse hasn't finish to help us learn about ourselves. Contrast to robots, we will never ask if equestrian intelligence will surpass human one. But, by understanding and control them, Human will live better in his environnement.

Come and meet us Thursday, 24th May 2018 at 14h30 on teh racetrack of Verrie, at Saumur to live an extraordinary edition of HIT, inspiring, smart but by keeping feet on the ground.

Jean-Christophe Dupuy, Founder of HIT.
