It is the responsibility of each Participant to check the status of the Event prior to planning his/her travel to the Event.

The Covid-19 section will cover domestic medical resources, essential phone numbers, and what happens if someone attending the Event is diagnosed with Covid-19 or displays signs/experiences symptoms of Covid-19. The Emergency Response Plan instructions in relation to Covid-19 will be disseminated to applicable personnel and included in the Covid-19 Communication Plan for the Event.

3. Covid-19 Screening Plan

A designated member of the OC will be responsible for preparing and overseeing an appropriate Covid-19 screening plan in accordance with local public health policies.

Domestic medical resources with contact information for referral of persons who have medical issues or fail Covid-19 screening will be available.

All transportation arrangements (shuttles and any other vehicles) will take applicable social distancing into account. If impossible, the persons transported should wear masks and clean their hands with disinfectant before entering and leaving the vehicle, which should be sanitized as often as possible.

In their information to the different categories of persons who will attend the event, the OC will include following instructions.

- If a person is notified preceding the event by a public health authority that they must quarantine due to a close contact with a Covid-19 case, this person must cancel their participation, except if the responsible health authorities (based on the applicable laws and policies) declare the end of the quarantine before the start of the event.
- If a person receives a SARS-CoV-2 positive test result or is diagnosed with Covid-19 while on the venue: this person must immediately remove themselves from the venue and inform the OC.
- If a person receives a SARS-CoV-2 positive test result or is diagnosed with Covid-19 less than 10 days after the event, this person should inform the OC immediately if the health authority who tested/diagnosed them considers that they may have contracted the virus or could have infected other persons while attending the event. The OC must then immediately inform the relevant health authorities in order to enable any Covid-19 case isolation, contact tracing and contact quarantine measures required by the domestic law and policies.

III. THE FEI CODE OF CONDUCT FOR THE WELFARE OF THE HORSE

The Fédération Equestre Internationale (FEI) expects all those involved in international equestrian sport to adhere to the FEI's Code of Conduct and to acknowledge and accept that at all times the welfare of the horse must be paramount and must never be subordinated to competitive or commercial influences.

1. At all stages during the preparation and training of competition horses, welfare must take precedence over all other demands. This includes good horse management, training methods, farriery and tack, and transportation.
2. Horses and Athletes must be fit, competent and in good health before they are allowed to compete. This encompasses medication use, surgical procedures that threaten welfare or safety, pregnancy in mares and the misuse of aids.
3. Events must not prejudice horse welfare. This involves paying careful attention to the competition areas, ground surfaces, weather conditions, stabling, site safety and fitness of the horse for onward travel after the event.
4. Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over. This covers proper veterinary care, competition injuries, euthanasia and retirement.
5. The FEI urges all involved with the sport to attain the highest levels of education in their areas of expertise.

The Long version of this Code can be obtained from the Fédération Equestre Internationale, HM King Hussein I Building, Chemin de la Joliette 8, 1006 Lausanne, Switzerland. Telephone: +41 21 310 47 47. The Code is available in English. The Code is also available on the FEI's website: <https://inside.fei.org/fei/regulations/general-rules>.

XV. ANNEXES

1. STEWARDING

If an athlete is uncertain as to whether the boots he/she intends to use during an event are allowed, he/she or his/her representative should show the boots to the Chief Steward for his/her opinion before the boots are used in training or in competition.

In addition, athletes are to be made aware that hind boots must be removed and placed again on the horse's legs in the presence of a Steward while in the warm-up arena prior to entering the competition arena for certain competitions. (If bandages are used in place of boots, athletes are not required to remove the bandages in the warm-up arena.) This procedure is compulsory for competitions for which boot and bandage control is mandatory, that is the Nations Cup, Championships, and the competition with the highest prize money, and is at the discretion of the Chief Steward for other competitions.

As an alternative to carrying out this procedure at the time designated by the Steward an athlete may ask his/her groom to take the boots to the in-gate and place them on the horse's legs in front of the Steward prior to the combination entering the arena.

The Steward has the authority to intervene if a boot is deemed excessively tight by instructing that the boot be removed and put on again correctly. [Stewards are to note that it is normal for a horse's gait to be somewhat affected immediately after boots have been removed and re-placed.] If an athlete or his/her groom refuses to remove and re-place the boot(s) when instructed to do so by the Steward, a Yellow Warning Card will be issued to the athlete in question.

If it is deemed impossible or unsafe to remove the hind boots in the warm-up arena prior to the combination entering the competition arena, due to an extremely excited or nervous horse, the boots of the horse in question are to be removed by the athlete/groom following the athlete's round upon leaving the arena and inspected by the Steward. This inspection may be carried out during the boot and bandage control if the boot and bandage control is carried out for the competition in question.

This procedure does not replace boot and bandage control after completion of an athlete's round for competitions for which boot and bandage control is mandatory (refer to JRs Art. 244.1)
